With a collection among the most important of the country, Galeria Estação, inaugurated at the end of 2004, devoted itself to revealing and promoting the production of Brazilian non-scholar art. The gallery was responsible for including this language in the contemporary art scene, while editing publications and holding individual and collective exhibitions inside and outside the country.

Galeria Estação works with well-known self-taught artists from various regions of Brazil, such as Agostinho Batista de Freitas, Alcides dos Santos, Amadeo Luciano Lorenzato, Artur Pereira, Aurelino dos Santos, Chico Tabibuia, Cícero Alves dos Santos-Véio, GTO, Gilvan Samico, Itamar Julião, João Cosmo Felix-Nino, José Antônio da Silva, José Bezerra, Manuel Graciano, Maria Auxiliadora, Mirian Inês da Silva, Neves Torres, among others.

Currently the gallery has been incorporating to its cast artists belonging to the contemporary artistic circuit whose works interact with non-scholar creation, such as André Ricardo, José Bernnô, Julio Villani, Germana Monte-Mór, Moisés Patrício e Santídio Pereira.

Starting from this rare competence, the space is able to offer a historical and current panorama of a production that went beyond the limits of self-thought art, at the same time as it investigates names that, independently of the formation, work with elements from the same source.
